

Introduction

Throughout the Tier 2 intervention, students practice important concepts over several units to reinforce and apply each concept within different activities and number sets.

The following Skills and Concepts Matrix allows teachers and school administrators to see how the lessons align with the Curriculum Focal Points and the Texas Essential Knowledge and Skills (TEKS). The unit numbers are displayed across the top of the table, and the specific TEKS, grouped by Curriculum Focal Point, are displayed down the left. The numbers in the body of the table specify which lessons within each unit correspond to specific TEKS.
